MAJESTIC

MAJESTIC STEADMAN DECLARES POLOK GUILTY

The charges under the Alberta Liquor Control Act, preferred against Mike Polok, Mike Duray and Martin Beigun, were heard on Monday afternoon before Magistrate Steadman, of Macleod.

The accused were represented by Mr. M. E. Moscovitch, of Lethbridge. Crown evidence was submitted by Serg. Duncan, of the A.P.P., and Chf. Spence, of the municipal police. The three men above mentioned were charged with "having in possession and for sale liquor, contrary to the provisions of the Alberta Liquor Control Act."

According to the evidence, the premises occupied by the accused, at the corner of Sixth Avenue and Stuart Street, were searched for liquor at 1 a.m. on the 28th of June, when a number of friends were being entertained prior to a "christening ceremony" which was to take place during the day. The officers collected about eight bottles of whiskey and several dozen bottles of beer, shins and quarts. Mike Duray, who was present, was later taken into custody and landed in the barracks, and later still Polok and Beigun were apprehended to jointly with Duray face charges under the Liquor Control Act.

The accused appeared before Magistrate Greenham over a week previous, but the case was adjourned, owing to objections to jurisdiction preferred by accused' counsel.

The evidence contained not a word to prove that any sale had taken place. The three men were entitled under the Act to have the quantity of goods found in their possession, but yet on mere circumstantial evidence, coupled with the supposition that liquor was being kept for sale, a verdict of guilty was registered and Polok was fined \$100 and costs.

Mr. Moscovitch, the accused' counsel, has already entered an appeal, which will likely be heard at an early date.

We understand that immediately following the case on Monday, the

BLAIRMORE'S

BLAIRMORE'S MILL RATE IS SET AT SIXTEEN

LOCAL DISTRICT STREAMS

ARE BEING STOCKED

The regular semi-monthly meeting of the Blairstore town council on Monday night was attended by Mayor McLeod, Councillors Gillis, Montalbetti, Sartoris, Ferguson and Hayes.

A deputation of ladies from the local I.O.D.E. waited upon the council in connection with the proposed War Memorial for Blairstore.

After some discussion, during which the deputation stated that their organization had already raised the sum of \$500, it was decided to form a committee of the I.O.D.E. and Red Cross to confer with a committee of the council at a later date, with a view to trying to arrange the raising of the balance of funds necessary for the project.

The minutes of previous regular meetings were approved as read, and the following were among the accounts passed for payment: A. Marquis \$10.00, B. Evans \$12.00, J. Vare \$4.00, F. Amato \$52.50, A. W. Pobbins \$40.00, R. Crawford \$27.00, Workmen's Compensation Board \$5.14, McLaren Lumber Co. \$134.50, J. M. Jenkins \$31.00, A. Schlosser \$26.00, Petty Cash \$9.35, C. Fawver \$19.00, Alberta Government Telephones \$12.55, West Canadian Collieries \$300.75.

A table of estimates was submitted by the chairman of the Finance Committee and Secretary-Treasurer. These estimates made possible an extremely low mill rate for the year 1925. According to the table, the approximate assessment for the Town of Blairstore was \$921,215.00. If the estimates as submitted were accepted by the council, it would be necessary to raise by way of levy, the sum of \$14,163.00 and a 16-mill rate on the above assessment would turn in \$14,750.44.

It was anticipated that owing to the quiet times tax collections would be somewhat slow. Nevertheless, it was thought that ample provision was being made for each department, and having regard to the financial standing of the town, the sixteen-mill rate was amply justified.

The estimates provided the following sum for the various departments: Finance \$10,466.00, public works \$7,500.00, waterworks \$1,650.00, health and relief \$152.50, license and police \$2,060.00, electric light \$9,400.00, fire department \$3,225.00, contingent (waterworks replacement) \$1,500.00.

Estimated revenue as follows: Health and relief \$400.00, waterworks \$8,000.00, public works \$273.00, license and police \$1,600.00, electric light \$13,000.00, total \$25,273.00.

The above table of estimates was on motion accepted by the council and By-Law No. 87, providing for a tax rate of sixteen mills was given three readings and finally passed.

This mill rate for the Town of Blairstore constitutes a record for the town and possibly for the province. In 1920 our mill rate for the municipality was 55, in 1921 it was reduced to 48, and in four years following has been cut by two-thirds.

Motion by Gillis-Montalbetti that a ten per cent discount be allowed on 1925 taxes paid within sixty days of demand date as stated on tax notice and 5 per cent discount on 1925 taxes paid within thirty days from expiration of the 10 per cent discount period, was carried.

Secretary Wright made formal application for a four-months' leave of absence. Motion by Gillis-Montalbetti, that the application of F. Wright for four months' leave of absence as secretary-treasurer be granted. Carried.

On motion, Councillor Ferguson was appointed deputy mayor for the ensuing three months.

Councillor Sartoris gave notice that at the next regular meeting of the

SEDGWICK—PORTER

Announcement is made of the marriage of Miss Reita Loi, daughter of Mr. and Mrs. George P. Porter, of Lethbridge, to Mr. Cole F. Sedgwick, formerly of Blairstore, which event took place at Glendale, British Columbia, on Wednesday, July the 8th. They have taken up residence at 106 Kerr Apartments, Nelson, B.C.

Two men are in hospital at Michel, following an accident which happened just east of Michel, when the car in which they were riding went over the trail but a few yards from where the Fleming fatality occurred.

A Romance of the Spanish Main
CAPTAIN BLOOD
RAFAEL SABATINI

Copyright, 1922, by Rafael Sabatini

"CAPTAIN BLOOD," a Vitagraph picture with J. Warren Kerrigan in the title role, is an adaptation of this thrilling novel.

CHAPTER XXVII—Continued

And their own made her in the end, and at cost of nearly half their numbers. Driven to the quarter-deck, the surviving defenders, urged on by the infuriated Rivarol, maintained awhile their desperate resistance. But in the end, Rivarol went down with a bullet in his head, and the French rebels, numbering scarcely a score of whole men, called for quarter.

After the capture of Blood's men were not at an end. The Elizabeth and the Modus were tight-locked, and Hargrave's followers were being driven back aboard their own ship for the second time. Prompt measures were demanded. Whilst Pitt and his men bore their part with the sale, and Ogle went below with a gun crew, Blood ordered the grapples to be loosened at once. Lord Willoughby and the Admiral were already aboard the Victoriæ. As they swung or to the rescue of Hargrave, Blood, from the quarter-deck of the conqueror vessel, joined his men, and the admiral had served him so well. A moment she rocked after her release, then slowly and gradually settled down, the water gurgling and eddying about her form, all that remained visible to mark the spot where she had met her death. As he stood there, above the ghastly shambles in the waist of the Victoriæ, someone spoke behind him. "Captain Blood, never before have I seen the impossible made possible by resource and valor, or victory so gallantly snatched from defeat."

He turned, and presented to Lord Willoughby a formidable front. His head-piece was gone, his breastplate dented, his right sleeve a rag hanging from his shoulder about a naked arm.

MISERABLE AND ALWAYS IN PAIN

Lydia E. Pinkham's Vegeta-
ble Compound a Dependable
Help for Mothers

Fort Greville, Nova Scotia.—"I took your medicine for a terrible pain in my side and for weakness and headaches. I seemed to boast all over, too, and I am the mother of four children and I am nursing my baby—the first one of four children. I am sure it is the best medicine for babies. I have had a Vegetable Compound before the baby's birth, so you can see how much it helped me. I cannot prattle if too much for this is the only one that has all kinds of medicine, but the Vegetable Compound is the only one that has helped me for any length of time. I am sure you may use my letter for a testimonial."—Mrs. ROBERT McCULLY, Fort Greville, Nova Scotia.

For many years the birth mother will find Lydia E. Pinkham's Vegetable Compound a blessing.

Many, many letters are received giving the same sort of experience only is the mother benefited, but these good results pass on to the child.

"No other drugs are used in the preparation of this medicine—just roots and herbs—and it can be taken in safety by the nursing mother."

"In many cases of women treated here from it in a recent census among women users of this medicine, O

Captain Blood sees the enemy

Captain Blood sees the enemy

He rose when she entered, and it was not as pale as she was, it was because his tan dissembled it. For a moment there was silence between them, as they stood looking at each other. "What should I speak, halting in an unsteady voice, making it one usually so calm and deliberate. "I am glad he comes before Lord Willoughby's departure." The orders Major, are that you place him under arrest the moment he steps ashore."

Peter Blood sat back in his chair and stared at the ceiling, frowning.

Came a tap at the door, and an older

negro slave presented himself.

Would his excellency receive Miss Bishop?

"He sat quite still, conscious

that his pulses were drumming in a manner wholly unusual to them. Then quietly he assented.

drove and pulled his heavy lips. His eyes twinkled humorously in his great nose.

"So!" he said. "Very good!"

My lord wheeled forcibly upon Captain Blood.

"If you want your past forgotten and your future assured, this is your chance. Your duty lies here, at least for as long as the war lasts. When the war's over, you may get back to Somerset and elder or your native Ireland and its pottoon, but until then you'll make the best of Jamaica and rum."

Van der Kuylen exploded into laughter. But Blood remained solemn as the point of gummess. His thoughts were on Miss Bishop, who was somewhere here in this very house in which they stood, but whom he had not seen since his arrival. Had she but shown him some

such a golden opportunity as this. He stiffened and bowed.

"My lord, you are in the right. It shall be as you wish, and very graciously, let me assure your lordship. I shall know how to earn his majesty's approbation. You may depend upon my loyal services."

Thus it was settled. Blood's commission was made out and sealed in the presence of Mallard, the commander.

"We sail tomorrow morning," his lordship announced. "Blood was started."

"And Colonel Bishop?" he asked.

"He becomes your affair. You will deal with him as you think proper on his return. Hang him by his own yardarm. He deserves it."

"Isn't the task a little difficult?"

"Very difficult. I'll leave a letter for him, and hope he'll like it."

Captain Blood took up his duties at once. With the sanction of Lord Willoughby, he marshaled his bugle-boys and surrendered to them one-half of the captured treasure, leaving to their choice thereafter either to do part or to end their enemies in the service of King William.

A score of them elected to remain and amongst these were Jeremy Pitt, Ogle and Tyre, whose outlawry, like Blood's, had come to an end with the downfall of King James. They were saving old Wolvertons, who had been left behind at Cartagena—the only survivors of that band of rebels, convict who had left Barbados over three years ago in the Clinch Lillas.

On the following morning, whilst the rest of the crew were making themselves ready for the long voyage, Blood sat in his cabin and stared at the ceiling, frowning. Came a tap at the door, and a negro slave presented himself. "The Governor's office," he said. Major Mallard brought him word that Bishop's hunting squadron was in sight.

"I am glad he comes before Lord Willoughby's departure." The orders Major, are that you place him under arrest the moment he steps ashore."

Peter Blood sat back in his chair and stared at the ceiling, frowning. Came a tap at the door, and an older negro slave presented himself.

Would his excellency receive Miss Bishop?

Hoping that mental digestion of these lines will result in greatly improved health and happiness of their readers. Your sincerely,

CHARLES WALTER,
51 Brunswick Avenue, Toronto.

Gift That is Invaluable

People Giving Blood to Hospitals Have Saved Many Lives

The British Government has conferred a decoration upon a member of an ambulance corps. During the last five years he has on 44 occasions given a pint of his blood to patients in a London hospital who were in a critical condition. He is quite a poor man, has never sought a penny reward, and says he did it "to help the hospital."

(To be continued)

Your Option

More than half the disease and sickness afflicting civilization and over-crowding our hospitals might easily be prevented if men and women would, on their own account, exercise some simple approach to the knowledge of what they have left them, their care and domestic animals. They study and discuss with each other the pros and cons of the minute detail connected with obtaining maximum efficiency of the machines they ride in, while countless volumes of the pen of eminent authorities are pore over in exhaustive search for the best procurable information regarding correct feeding and care of horses, cattle, poultry, dogs and cats.

With both man and beast "the blood is the life" and the composition of the blood is dependent upon the nature of the food supplied the digester organs. The body of every living creature contains sixteen elements. Like elements exist in fertile soil and in the atmosphere, which are the source of precious little lives every summer. The mother must constantly on her diet to prevent these troubles or if there is no time on her part, then the No other medicine is of such aid to mothers during the hot summer as is Hail's Own Tincture. They regulate body temperature, and a small, occasional dose, given to the well child will prevent summer complaint, or it will cure it. The tincture is sold by medicine dealers or by mail at 25 cents a box from Dr. W. McCann, Medicine Co., Brockville, Ont.

Could Sell Cheap Too.

A young matron, shopping, asked a butcher the price of hamper steak—receiving five cents a pound, he replied.

"But at the corner store it is only twelve cents," said the customer.

"Well, why didn't you buy it there?"

"Because they haven't any."

"Oh, I see," said the butcher. "Ven I don't have it I sell it for ten cents a pound."

Drives Asthma Like Magic.

Immediately help from Dr. J. D. Kellogg's Asthma Remedy.

Never before has there been such a natural remedy used in a natural way.

The smoke or vapor from the magic tube, brushed aside, opens and opens a way for fresh air to enter.

It is sold by dealers throughout the land.

Two French archaeologists have unearthed an alphabet dating back to 1200 B.C.

Dogs cannot be landed in Great Britain unless a license has been previously obtained from the board of agriculture in London.

in the Business

"Miss Helen has lovely hair."

"She gets it from her father."

"But he is bald!"

"Yes, but he's a hairdresser!"

No man or woman should neglect personal hygiene because of the cost, when so certain a relief is at hand as Holley's Corn Remover.

Brothers love their tea so much that about one-half of the world's production of tea is consumed by them.

Minard's Liniment for Rheumatism

The area of the Sahara Desert is larger than the United States by nearly 500,000 square miles.

(Heft it Once!

Then You Will Want One for Your Own Kitchen

The very feel of it will make you want to own it.

It is so smooth, so slick, so light, so right.

The handle is right and doesn't tip around like a hinged lid.

That means no slipping, scalded hands or accidents.

See how you fill it? You lift the hinged lid and pour in right under the tap or dipper.

See how you clean it? You dipper.

Most important, these new up-to-date kettles cost no more than the old fashioned kinds.

TEACHERS SUPPORT BLAIRMORE COLLEAGUES

Some important developments of the Blairmore trouble between teachers and school board arose at a mass meeting of sub-examiners and teachers attending the summer school held at the close of last week.

The Blairmore school board recently notified the thirteen teachers on their staff that a salary cut would be initiated after the summer holidays. Since the schedule of salaries for schools in the Crows' Nest Pass had been drawn up after negotiations with the Crows Nest Pass Local, the teachers naturally wished to have this local act on their behalf in negotiating another agreement. The school board, however, demanded individual negotiation and the teachers decided to act through the Alberta Teachers' Association.

The teachers at Blairmore cannot accept a cut in salary. Forced to live at the hotel because there is no other accommodation for them, they cannot get board and room under \$18 a month. On a minimum salary of \$100 that means only \$33 over and above this expense.

Though the ratepayers of Blairmore are themselves very much against the action of the board, the board is advertising for an entirely new staff and refusing to listen to arbitration.

The meeting held in Convocation hall most enthusiastically congratulated the Blairmore teachers in the

"splendidly loyal stand made by half of the teaching profession of the province."

The teachers assembled also individually pledged themselves to support financially and in every possible way the Blairmore teachers until they are reinstated and until the Blairmore school board concedes the right of the Alberta Teachers' Alliance to negotiate on behalf of its members, and the meeting guaranteed the first month's salary of the Blairmore staff. Sufficient money was promised at the meeting to pay the salaries of the Blairmore teachers for the month of September. The contributions made at this meeting were almost entirely from members at large and do not involve in any material way the members of locals. The locals cannot function during the holidays and the splendid spirit of generosity and sacrifice shown at this meeting relieves the executive of the difficulty of financing the lockout without touching reserve funds before the locals can be called into action and the levy made in September.

It was decided also that all examiners and sub-examiners in the city who were not present should be invited to subscribe. The provincial executive of the A.T.A. feels that if the teachers can only be kept in office until the next election, that will be well, and that they will be reinstated. This matter will be brought before the various A.T.A. locals at the earliest possible date. So far the action taken has been by the members of this organization who are at present in Edmonton—Edmonton Journal, July 15.

At a meeting of the Coleman Rod and Gun Club last week, the opinion was expressed that wardens and mounted police should devote a little more time to patrolling local waters, in order to put a stop to dynamiting and snaring of game fish. They should even go further and examine the boats of some of those returning who are in the habit of frequenting closed waters and bringing out fish of undersize.

At a meeting of the Coleman Rod and Gun Club last week, the opinion was expressed that wardens and mounted police should devote a little more time to patrolling local waters, in order to put a stop to dynamiting and snaring of game fish. They should even go further and examine the boats of some of those returning who are in the habit of frequenting closed waters and bringing out fish of undersize.

That refusal of parents to allow their children to be taught by a seab staff and also refusal of taxpayers, property owners or otherwise, to pay any further taxes until the old staff

J. E. UPTON -- Your Home Tailor

IT MAY BE WELL FOR RATEPAYERS TO REMEMBER

That had it not been for the fact that a certain portion of our school board had been obliged but recently to take a cut in salaries, it is doubtful if the cutting of teachers' salaries would have been suggested.

That at least one of those supporting the salary-cut movement is making the same charges today with all parties he has to deal with in a business way as he did before or during the war, still claiming that cost of living has come down considerably and that salaries of the teaching profession, the most important profession to us today, should be cut proportionately.

That in addition to the discourteous and unkind treatment meted out to the best balanced staff of teachers Blairmore has ever had, they received a final black-eye on leaving for their summer vacation through the medium of cheques that were not cashable at the bank, and that after receiving notice that their contracts with the district had ceased.

That the recent action of the Board in refusing to recognize a teachers' union and notifying the members of the staff that their positions would be declared vacant, without other cause, and attempting to fill such vacancies by applicants who in the eyes of unions cannot be considered as other than scabs, might prove to be the most expensive undertaking the ratepayers of this district have ever been called upon to meet.

That the present Board of School Trustees contains a larger representation of non-property holders than will ever again exist to represent the ratepayers of Blairmore School District No. 628, and that the election in February next will give the ratepayers proper opportunity to step in and handle affairs as they should be handled.

That the majority of ratepayers of the district are members of the miners' union and as such will not, in the face of the recent attitude of the Board, permit their children to be taught by those who will undertake to replace teachers who are fighting for a just right, in the interest of the teaching profession and all that is best desired towards maintaining a high standard of efficiency and service.

That as yet no formal demand for a salary cut has been made by the heavy taxpayers, and until such a demand is made the Board cannot be justified in their present action.

That refusal of parents to allow their children to be taught by a seab staff and also refusal of taxpayers, property owners or otherwise, to pay any further taxes until the old staff

or teachers is reinstated in its entirety, might force the issue to the department of education or the government for action.

That automobiles and trucks are assessable, but that in Blairmore a person should buy \$200 worth of real property it is assessed by the school district, while if the same person would put \$2000 in a sport car he will get off scott free.

The adjourned session of the Alberta legislature will meet on August 3rd.

Special constables will be on duty at the big carnival, dressed in special Elk's uniform. All parties not conducting themselves properly and all parties not taking the enjoyment out of life that they should will be subject to arrest, and all minor charges will be tried before the special Elk's judges. The court session will continue till the grand closing on Saturday night.

Blairmore is the only school district in the province that has so far suggested a cut in teachers' salaries, and we would venture to say that in no other school district in the province are taxes so easily collectable as right here. The biggest kick against paying taxes that we have heard are coming from those who have no property but simply pay \$4 a year towards the support of our educational institution.

HOME BANK PAYMENTS START MIDDLE OF AUGUST

TORONTO, July 10.—G. T. Clarkson, K.C., joint liquidator of the Home Bank of Canada, stated today that payments for the 35 per cent reimbursement of depositors who had less than \$500 in the bank, would not commence before the middle of August. It will be at least four or five weeks before the initial information necessary to make these payments can be provided.

Information necessary before Commissioner MacLean can proceed with the claims of those who had more than \$500 deposited will not be available until September, the liquidator said.

The remains of Mrs. Jennie Mabel Smith, beloved wife of Mr. D. A. Smith, of Beaver Mines, who died on Friday last, were taken to Blairmore, where they were laid to rest on Sunday afternoon. The aged lady is survived, besides her husband, by six sons and four daughters, nine of whom were present at the funeral. Carl Smith, of Eleventh Avenue N., Blairmore, is a son.

Several members of the local I.O.O.F. Lodge accompanied Bro. A. Morency, district deputy grand master, to Cowley on Tuesday night last, when the officers of Cowley and Flanders Creek Lodges were jointly installed.

FINAL ANNUAL MEETING OF CENTRAL UNION CHURCH

WILL JUMP FREIGHT

RATES ON JULY 23

The final annual meeting of Central Union Church and the first election of officers of the Blairmore United Church was held following the evening service on Sunday last.

The chair was occupied by Mr. J. Upton, while Mr. W. A. Chappell acted as secretary of the meeting.

The financial statement was read by the secretary, showing the assets to be very largely in excess of the liabilities. On motion the report was received.

Report of the Sunday School was read by Rev. Mr. Young, and was on motion approved, as was also report of the Session.

Report of the Ladies' Aid was not available, but on motion by Mr. Chappell, seconded by Mr. Thompson, the thanks of the congregation was tendered the Ladies' Aid for their generous financial assistance during the year. The donations from the Ladies' Aid amounted to \$610 in the fiscal year.

The election of officers resulted in the re-election of the Board of Stewards, namely, F. M. Thompson, J. E. Upton, W. J. Bartlett, A. Hamilton, W. G. Pearson and W. H. Chappell. Mr. W. Howe, senior, was elected to replace Mr. Clark, resigned.

Election of Board of Session resulted in S. Knagman, W. Thomas and D. R. McKay being elected for three, two and one years, respectively.

On motion by Messrs. Bannon and Warner, it was decided that the church be hereafter known as the Blairmore United Church.

A vote of appreciation was tendered Messrs. Rae and Clark for their services, as usher.

Regret was expressed at the recent departure of Mr. Wallace Clark.

A vote of thanks was tendered the choir leader, the organist and the quarterly official board.

A vote of thanks was also tendered the auditor.

A Coleman youth the other day asked how long girls should be courted. Well, in Blairmore the young men court them the same as the short ones.

OTTAWA, July 13.—Crown's Nest rates on commodities, other than grain and flour eastward, will cease to be effective on July 23rd next. An order of the board of railway commissioners provides for a return to its general rate in effect prior to July 23rd, 1924. Under the law passed at the recent session of parliament, the railway commission has full authority over rates with the exception of those on flour and grain eastward.

In the case of these commodities, the law expressly states that the maximum rate must not be higher than provided in the Crown's Nest Pass agreement. Definite steps toward a revision and general equalization have already been taken up by the board of railway commissioners.

HILLCREST HAPPENINGS

Mine Rescue Car No. 1 is at present stationed at Hillcrest.

Several amusing stories are being told just now regarding fishing, the latest by Billy Adlam, who wins first prize.

Mr. Ed. Royle, Master Willie Royle, Miss Nellie Royle, Miss E. Bamforth, Miss Gladys Howcroft, Mrs. Irene Metcalf comprised a party to leave for Waterton Lakes on Saturday last on a three-weeks camping trip.

The football game between Hillcrest and Coleman on Saturday resulted in a tie, one each. Coleman sat at the last minute through a penalty. The return game will be played at Coleman on Saturday evening next.

Hillcrest baseball team took in Coleman on Tuesday night, and let them down easy, to the tune of eight to one. Jack Johnson will have to turn out a better brand if he expects to lower the Hillcrest colors, especially the way Hillcrest is playing now.

MASS MEETING SUMMER SCHOOL TEACHERS BEHIND BLAIRMORE STAFF

A well attended meeting of members of the Alberta Teachers' Alliance assembled in the summer school at Edmonton was held in the University convocation hall on Thursday of last week.

President Parker took the chair at 8 p.m. and gave a general outline of the Blairmore dispute. He gave the meeting clearly to understand that the provincial executive had given lengthy and most serious consideration to the dispute between the Blairmore School Board and the Alliance. He emphasized the fact that the Crows' Nest Local had been advised throughout the whole dispute and that every step taken had been unanimously ratified and endorsed by the executive. Every member of the executive felt that the situation must be met squarely and that no matter how long the dispute lasted, or what it costs, the fight must continue to the finish.

He stressed the fact that the organization had been flouted and insulted by reason of the treatment meted out to its executive official, who was flatly refused a hearing by the Blairmore School Board. The Alliance could not afford to be so treated.

The president then called upon Mr. D. M. J. Conway, president of the Crows' Nest Local and principal of the Blairmore school. Mr. Conway gave information as to the development and progress of the dispute, pinning his remarks to more specific details. He felt that, if he were to remain a loyal member of the organization, no option was open to the Blairmore staff than to call in the Crows' Nest Local to negotiate on behalf of his staff, which formed part of the Local. The Board members, with the exception of Mr. Wheatley, absolutely refused to deal with the members of the staff, except individually, and as a final resort President Conway called upon the provincial executive for aid.

Mr. Conway then dwelt at length on the dispute as it affected the province as a whole. He stated that he "would be ashamed to belong to an organization which would not support its members in their hour of need." This remark was not met by cheers and applause from the teachers present. He referred to the glorious loyalty of other labor organizations. He felt that his own association would not fall behind in the fight for recognition of its very existence. No, the Alliance could not stand idly by and maintain its self respect. Evidently, he realized that any exhortation was not needed and sensed that this meeting of teachers wanted to get down to business. His closing remarks were loudly applauded.

Mr. Hoyle, member of the Crows' Nest Pass executive, then addressed the meeting. In explicit terms he emphasized the blundering attitude of the Blairmore Board. He showed clearly that there were no grounds on which to dismiss the staff. The inspector's report had been highly satisfactory. No charge of misconduct had been preferred. Why then this attitude of the Board? He further stated that if the Alliance was to exist at all it should give unqualified support to the Blairmore teachers.

Mr. W. Barnett, general secretary-treasurer, then addressed the meeting. He reported fully on his trip to Blairmore. He was most emphatic about the anti-Alliance attitude of the Blairmore School Board. The meeting was fully informed on the advice he tendered to the Blairmore staff. He felt that he was but doing his duty when he advised the teachers that they would receive unstinted support. The hour had struck when the teachers should stand shoulder to shoulder in defense of their rights. The action of the Blairmore School Board was unscrupulous, undemocratic and lacking in dignity. No longer should the teachers tolerate such conditions. The Alliance was determined that the Blairmore case should be fought to victory.

When Mr. Barnett concluded, the

audience called for other speakers, but it was plain that the meeting did not want speech, but action. A teacher arose from the body of the hall and moved congratulations to the Blairmore sub-local. His motion was quickly seconded. Brief addresses of support were made and the motion was carried amidst applause.

The question then arose as to how much the members present should pledge, and the president and general secretary were asked for a lead. The meeting was informed that if the first month's salary of the Blairmore staff were guaranteed, all that could be desired was accomplished. This resulted in several members stating that they were prepared to go much further than that.

Rev. A. H. Going, principal of the school, regretted that all teachers were not loyal to their professional organization. If such were not the case, the Blairmore dispute could not last twenty-four hours. Loyal members should give the cold shoulder, not only to any teachers who might seek appointment with the Blairmore School Board, but those also who in past disputes had perhaps encouraged school boards to act as Blairmore was now doing.

Mr. Charles Peasley, past president of the Alberta Teachers' Alliance, emphasized Mr. Going's sentiments. Sundry other members entered the discussion and not one dissenting voice was raised against the action of the Blairmore staff.

The president then called upon Mr. D. M. J. Conway, president of the Crows' Nest Local and principal of the Blairmore school. Mr. Conway gave information as to the development and progress of the dispute, pinning his remarks to more specific details. He felt that, if he were to remain a loyal member of the organization, no option was open to the Blairmore staff than to call in the Crows' Nest Local to negotiate on behalf of his staff, which formed part of the Local. Here and There

This year's receipts from motor vehicles licensed in New Brunswick already amount to \$422,000. The amount is larger than the total for any year since last year when the annual receipts for the whole twelve months were \$452,699. The estimate for the present year is half a million.

The mines and quarries of the Province of Quebec produced to the value of \$18,952,896 during 1924, according to the final report issued by the Provincial Department of Mines. Building materials account for \$11,380,977; other non-metallic minerals \$7,191, and metallic minerals \$380,894.

"In the Cascades and falls of the Canadian Rockies it is believed that the American west will supply the electric energy it will need for ages to come," declared W. Paxton Little, treasurer of the Niagara Falls Power Company, who recently visited Banff with a party of distinguished American electrical engineers.

That the Province of Quebec abounds in historic and romantic material for the construction of popular novels, is the judgment of two popular writers—James Oliver Curwood, author of scores of best sellers, and Edwin Balmer, well-known short story writer—who have recently toured the provinces and Western Canada in quest of "local color."

There has been an unusual distinction conferred upon Prof. Camille Couture, a Montreal musician, who, besides being a violinist is also a maker of violins. He has been honored with a medal and diploma from the British Empire Exhibition at Wembley for a magnificent violin of his make, which he exhibited there.

In order to dispel the existing impression in England regarding the coldness of the Canadian climate, five thousand peony blooms are being distributed at the Canadian Pacific Railway Pavilion at the British Empire Exhibition. These plants are the work of Mrs. Grace O'Brien of Montreal, who states that peonies are the best landscape flower and can be grown in all parts of Canada, irrespective of climatic conditions.

Hon. W. G. Nichol, Lieut.-Governor of British Columbia, and D. C. Coleman, Vice-President of the Canadian Pacific Railway, opened Crystal Gardens, the new and unique indoor salt-water swimming pool at Victoria, B.C., recently. This amusement centre, which has two dancing floors, a gymnasium, art gallery and tea rooms, is regarded as the largest and finest of its kind in the continent.

Being exceeded only by Mexico and the United States, Canada now ranks third among the silver producing countries of the world. Records of Canadian production have been kept since 1858 and show a total recovery of 451,000,000 fine ounces to the end of 1923. In 1924 production was slightly in excess of 20,000,000 ounces. During 1883-1923 the value of production totalled \$390,705,832, while for last year it amounted to \$13,519,043.

The first lot of buffalo, numbering some 200, to be imported from the Wainwright Park to the new Buffalo Park, north of Edmonton, left Wainwright, Alberta, recently. For some time past the herd at Wainwright had been growing too rapidly and the Federal authorities decided to ship a number to the Buffalo Park to determine whether or not they can acclimate themselves in the new district as they did in the southern area. Altogether two thousand buffalo, in lots of two hundred each, will be shipped to the Buffalo Park.

Mayors and aldermen of the principal cities of Alberta and British Columbia, as well as representatives of Saskatchewan, gathered in Edmonton this week for a three-day session, when questions of importance to the west were discussed. Harry Gale, mayor of Vancouver, acted as chairman. In addressing the gathering, Mayor Blatchford, of Edmonton, stated "that the fact that the delegates had paid their own way and were not travelling at government or cities' expense, proved that there was some thing behind the movement."

Roy Hogarth, of Coleman, charged with attempted suicide, has elected for speedy trial and will likely come before Judge McDonald at Lethbridge this week end.

Canadian Trade Prospects

With the close of the first six months of 1925, financial and commercial publications in Canada have been taking stock of the business situation throughout the Dominion. The conclusions reached by them as the result of careful surveys is that present conditions are better and prospects for the immediate future more promising than for some years past. This is especially true in regard to agriculture, and, as the West has always contended, a betterment in the farming outlook has a direct beneficial effect on manufacturing and all business.

Although actual returns from the farms are problematical of grain and field crops until they are finally removed from all vagaries of weather, plant disease and pests, the fact remains that at the end of June prospects throughout Canada, and especially in the Western Provinces were better than for many years past. In the absence of widespread and extremely adverse conditions before harvest, the outlook is for one of the best and most profitable years in ten years.

One financial paper in its annual review at the end of June states, on the basis of reports from all the Provinces, that "the greatest increase in employment in two years has taken place, with the result that, except in the large cities where the unemployed are congregated, there are few idle men. Manufacturing industries are busier than for years in Ontario and Quebec, real activity prevails with manufacturing near to capacity in several lines and some plants working overtime."

Record catches of fish on both the Atlantic and Pacific seaboards have taken place, immigration is increasing, the summer tourist traffic shows every indication of attaining a new high record, while the export trade of the Dominion continues to increase both in volume and value month by month. Building construction is likewise much greater than a year ago. Railway car loadings are smaller, but this is accounted for in two items, the smaller volume of last year's grain crop and reduction in the movement of coal resulting from labor trouble at the mines. On the other hand, there is a substantial increase in car loadings of manufactured articles and general merchandise, while this year's grain crop promises to more than offset the reduced value of a year ago.

One of the significant developments is the steadily rising volume and value of Canada's export trade. The same year saw the Dominion Government has been quietly negotiating trade treaties with other countries. One of the latest was with Australia and already British Columbia is looking forward to and preparing for a big expansion in trade with that sister Dominion. Before this article appears in print it is expected that the terms of a new trade arrangement with the British West Indies will be announced. Inasmuch as each and every one of these reciprocal agreements provided for the removal of artificial restrictions on trade through the lowering of customs duties and the wiping out of other obstacles to the free exchange of commodities, and are frequently accompanied by the provision of larger and improved facilities of communication and transport, the effect cannot be otherwise than to greatly enlarge Canada's markets abroad, and, as repeatedly urged in this column, that is exactly what a young and producing country like Canada requires. Freeer trade and wider markets are bound to bring about the Dominion's development leading to increased employment and production and resultant prosperity and growth in wealth.

A young country like Canada, with a comparatively small population, but huge resources and plenty of room for expansion, must necessarily develop its own economy and already possessing manufacturing and other industries which cater for production far in excess of the needs of home population, stands in need, not so much of protection of that restricted home market, but the removal of obstacles to trade with the world. We cannot grow strong and wealthy by merely trading with ourselves; that is too much a case of trying to lift oneself by the boot strap. Strength and wealth will come through producing for sale abroad, thus bringing into Canada the wealth derived through the sale of our products abroad.

A Modern Hercules

Tossed Around 600-Pound Safe Like A Toy

An und-nilted "strong man" at Patterson, N. J., with a vocabulary of only two words, tossed around a 600-pound safe, "thumped the door off, pushed aside seven policemen and a store proprietor, dived through a plate glass window, knocked two men down and finally was captured, by means of a flying football tackle. Somewhere in the course of these activities he received some severe knocks on the head, one of which, physicians said, might prove fatal.

The man was unidentified because he could only say "all right." He appeared otherwise dumb and was not able to write his name.

A pianist playing a brilliant number will touch as high as 1,900 keys in a minute with one hand.

War Veterans To Unite

Ten Veterans' Organizations in Montreal To Join League

Montreal's ten war veterans' organizations, none of whom are united in the Dominion Veterans' Alliance, will all become members of the proposed Canadian Legion, either by amalgamation or affiliation. S. D. Cunningham, secretary of the Quebec council of the alliance, stated: "He said all were sympathetic to the legion and five have already expressed an intention to join. These were four branches of the Great War Veterans' Association and the Tuberculosis Veterans' Association.

Insurance Agent.—"My dear sir, have you made any provisions for those who come after you?"

Harsup.—"Yes, I put the dog at the door and told the servant to say I'm out of town."

How Germany Solves Housing Problem

Families Allotted Space According To Number Of Members

They have a speedy method of solving the housing problem in Germany, according to an English paper, which says:

"You have here a flat of eight rooms; you are three in family. You will live, in future, in three rooms. Another family will move in next week to occupy the other five rooms. Good morning."

What would a British (or Canadian) householder say if an official said such a thing to him, and if he knew that he could neither protest nor refuse?

That is what happens in Berlin every day. Next time we are inclined to grumble at hard conditions in our own country, it may help us to be more contented if we realize what the Germans put up with.

Rents are adjusted according to the number of rooms occupied in a house or flat.

"Thus, the family using five rooms in an eight-roomed house—with the original tenant inhabiting the other three rooms—will pay five-eighths of the rental.

NATURE'S WARNINGS

Danger Signals That Everyone Should Take Seriously

Pain is one of Nature's warnings that something is wrong with the body. Indigenous for many years, it is characterized by pain in the stomach and often about the heart; rheumatism by sharp pains in the limbs and joints; headache is a sign that the blood is not circulating well; and in some aliments, such as heart disease, pain is not so prominent. In this case, Nature's warning take the form of pain in the bowels after over-exertion, pain in the heart, and loss of appetite. Whatever these warnings take, wise people will investigate the cause that may be disease, have their critics bring in the doctor, and when the blood is enriched the trouble disappears.

Dr. Williams' Pink Pills are most helpful in such cases. They are a tonic, helping to restore the blood to its normal strength. In this way it tones up the nerves, restores the appetite and gives perfect health. Dr. Williams' Pink Pills, prior, or, has proved the great value of this medicine and says: "I am a young girl and have been working in a factory for three years. For two years I had been in such poor health that at times I could not work. I was thin and pale, and troubled with fits of pain in the bowels. I consulted my doctor, and he advised me to take Dr. Williams' Pink Pills, and after taking a few tablets I soon began to improve in my condition. I used nine boxes and can truly say that my health is restored. When I began taking the pills I weighed 99 pounds. Now I weigh 134. I feel that I owe my good health to Dr. Williams' Pink Pills and hope other women will give them a fair trial."

You can get these pills through any medicine dealer or by mail at 55 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Soviet Denies Intrigues

Would Avoid Any Action Which Could Be Regarded As Intervention In China

Foreign Minister Tchitcherin has issued a statement declaring that while the sympathies of the Russians are on the side of the Chinese in their struggle for complete liberation from foreign domination, the Soviet Government's policy is to avoid any action which could be regarded as intervention in China's internal affairs.

The statement was prompted by attacks upon Soviet Russia in the English newspapers in connection with the present situation in China. The foreign minister denies that Soviet Russia is carrying on intrigues in China against British trade or against foreigners in general.

Insurance Agent.—"My dear sir, have you made any provisions for those who come after you?"

Harsup.—"Yes, I put the dog at the door and told the servant to say I'm out of town."

COMMISSION TO TAKE ACTION ON FREIGHT RATES

Ottawa.—Definite steps towards revision and equalization of freight rates are being taken by the railway commission.

The board, in a memorandum, requests the public both as individuals and organizations as well as provincial, municipal and civil authorities, boards of trade, chambers of commerce, industrial organizations, firms, companies and individuals, including shippers and carriers, to submit any statement of facts under which it is claimed that unjust discrimination or undue preference, or unfair treatment exists in connection with the rates of freight charged upon any commodity.

Information in respect to any unfair discrimination or treatment of any person, city or province, by any railway company is also requested.

Statements setting forth the ground upon which it is claimed on behalf of the maritime provinces, that they are entitled to the restoration of the rate basis which they enjoyed prior to 1919 and submissions as to the encouragement of traffic through Canadian seaports are further asked by the board.

The memorandum recites the order-in-council under which the board is instructed to proceed with its enquiry into the equalization of railway rates, and declares that the board desires to enter upon its investigation with the least practicable delay in business and traffic conditions generally.

Death Of General Strange

Distinguished Soldier Took Prominent Part In Northwest Rebellion
London.—Major-General Thos. Bland Strange, who was well known in Canada many years ago, died at Camberley, Surrey. He was 94 years old.

General Strange was inspector of Canadian Artillery in 1871. He was commanding officer of the Fortress of Quebec for some time. He made a name as a daring and successful military educator in the Canadian Northwest Rebellion of 1885.

At the request of the Canadian Government, General Strange took command of the Alberta field force in the rebellion. It attacked and dispersed the Indians and half-breeds who were fighting under the leadership of the Cree Indian Chief Big Bear at Frenchmen's Butte. He received the thanks of the Dominion Government for this.

Better Livestock Train Disbanded

Stock Was Sold to Farmers During Southern Trip
Regina.—The better livestock train, which has been travelling through the southern part of the province since June 10, has completed its itinerary and disbanded.

The train was organized by the department of agriculture in the Saskatchewan Government, with the co-operation of the Canadian Pacific Railway. The train was fully equipped for the exhibition of stock, the illustrations of agricultural methods by means of moving pictures and lantern slides, and the giving of lectures on agricultural topics. In addition, a large percentage of the stock was sold to farmers in various districts during the course of the trip.

Largest Motorship Launched
Belfast.—A 23,000-ton motorship, the largest and most powerful of its type in the world, was launched at Queen Island, Belfast, and christened *Asturias* by the Duchess of Abercorn. The ship will trade with Argentina and Brazil.

It will accommodate 1,700 passengers.

Union Jack Must Be Background
Vancouver.—No desire for a new Canadian colony will be the support of the 1,000,000 British Canadians unless it embodies the Union Jack as a background, according to a resolution adopted by the association at a meeting here.

The War in China
Canton.—Continued anti-foreign agitation started an exodus of Canton business houses to the British settlement of Hong Kong, 95 miles distant. Predictions were made that hostilities would last six months.

Tokyo.—The blind men of Tokyo are planning to publish a daily newspaper by use of the British printing equipment. It is believed it will be the first daily paper for blind people in the world.

More Single Men Are Convicted Of Crime

Toronto.—Judge Dryart is authority for the statement that blue men are convicted of crime to every woman, and single men to twice as many, as are married. At this annual convention of the chief constables of Canada, Judge Dryart pointed out that when the attention of the home was not given to the children, they experienced harmful freedom in their actions. They found access to the movies easy and from lurid films gathered ideas which poisoned their minds.

Tornado Hits Minneapolis

Three Persons Killed and Much Damage to Property

Minneapolis.—Three persons were killed and at least 25 injured here when a wind and rain storm, striking with the force of a tornado, swooped down on Minneapolis, tore the roof off a section of a pavilion at Lake Harriet and buried nearly a score under the debris.

As the wind rushed through the city, the floor in a south Minneapolis restaurant gave way beneath a half-dozen dinner guests, throwing them into the basement. None was seriously hurt, however. Store fronts were caved in by the wind, several houses damaged, trees uprooted, and traffic was tied up by flooded streets, as the sewers were unable to carry off the heavy rain. Basements of many houses were flooded.

Britain Reducing Dole

Hopes New Government Bill Will Aid to Emigration

London.—There is going to be a cut of six and a half million pounds in the unemployment dole under the new government bill and labor is furiously attacking the government. The minister of labor under this measure will regain his power of discretion to allow or disallow benefit already extended, by which it is hoped to check the scandalous abuses and the glaring cases of married women drawing the dole and yet being unwilling to work.

The effect of the bill will be to reduce the number of men and women seeking the dole and to encourage emigration, which is today being seriously handicapped under the dole system.

Commander Maude Reaches Santa Barbara

Sailing to England From Victoria in Light Craft

Santa Barbara.—Commander Eustace B. Maude, British navy, retired, who set out from Victoria, B.C., two months ago, to sail alone to England in a 25-foot yawl, put into Santa Barbara harbor for provisions. He had not expected to land until he reached Panama, but was driven close to the coast recently by storms and decided to drop anchor here.

Victoria.—Commander Eustace B. Maude left here May 5 for England. In his 25-foot yawl. He is 74 years old.

New Game Law in Alaska

Non-Residents Must Be Accompanied By Licensed Guides

Seattle.—Beginning August 15, non-residents hunting game animals in Alaska must be accompanied by registered and licensed guides, the Alaska game commission has announced. Persons not licensed have been prohibited from guiding non-resident hunters.

Formerly, licensed guides were required only for the Kenai Peninsula, between Cook Inlet and Prince William Sound, south of Anchorage, but the new ruling covers all Alaska.

Hindenburgh's Son Personal Adjutant
Berlin.—Major Oscar Hindenburgh, who, until his father's election as president of the German Republic, was stationed with the Hanover Cavalry School, has been transferred to the defense ministry. He has been posted as the president's personal adjutant.

Suspend Death Sentence

Moscow.—A Moscow dispute to the Havas Agency says the Soviet Government has granted the request of the German Government for a suspension of the death sentence on two German students charged with plotting to kill Leon Trotsky and other Soviet leaders.

Sign of Good Conviction

Germany.—A representative of the German Government has signed the convention to limit traffic in arms, negotiated by the recent arms conference here. Germany had previously signed the protocol against the use of poison gas in warfare.

Wants India As Partner

Britain Aims to Have Co-operation Of Indian People

London.—Great Britain no longer "talks of holding the gorgeous east in fee, but asks India to march side by side with us in truthful, harmonious partnership, which might create the greatest and proudest days of Indian history," declared the Earl of Birkbeck, secretary of state for India, in an important debate in the House of Lords.

Arguing that the 1919 act had not failed, but never had had a chance, because of the refusal of the Indians to co-operate with the British, Lord Birkbeck confirmed that the door of acceleration was open, but only when "we see everywhere among responsible leaders of Indian thought the evidence of sincere and genuine desire to co-operate with us in making the best of the existing constitution."

He appealed to the Indian people with deepest sincerity for goodwill and co-operation.

"We shall not be niggardly bargainers if we meet the generous friendliness which is near and dear to our hearts," said the secretary of India.

TRADE PACT IS NOW CONCLUDED WITH WEST INDIES

Ottawa.—Improved steamship services and mutual tariff preferences are the features of the Canada-British West Indies-Bermuda-British Guiana-British Honduras trade agreement, the full text of which was made public. The agreement, which is subject to the ratification of the Parliament of Canada, the colonial office and the governments of the other contracting parties, is for a period of 12 years, and will come into effect upon proclamation.

Canada, under the agreement, extends tariff preferences on bananas, coco beans, lime juice, limes, arrow root, coconuts, grapefruit, rum, onions, coco butter, green coffee, ginger and spices, nutmeg, pineapple, sugar, marlin sponges, anguilla butter.

All goods other than tobacco, cigars, cigarettes and spirituous or alcoholic liquors, being produced or manufactured in any of the states mentioned, when imported to Canada, shall not, at any time, be subject to a tariff more than 50 per cent. of the duties imposed on similar goods under the general tariff of Canada.

Jamaica.—The Bahamas, British Honduras, Barbados, Trinidad and British Guiana give Canada preferences on flour, butter, cheese, lard, condensed milk, meats of all kinds, flour, apples and potatoes, boots, cement, prepared cocoa, confectionery, cordage.

Brand as Traitors Those Who Cause Financial Crisis
London.—Punishment of speculators as traitors to Italy was suggested by Deputy Schenck of the Italian chamber, who also demanded that Stefan Zweig, a member of the government, be tried for his role in causing the recent financial crisis in the country. He said those who bought foreign money needlessly, and thereby brought about depreciation of the lira, should be treated as traitors.

So far no offers have been received.

Italy Would Punish Speculators

Alberta Crop Seen in 1925

Edmonton.—In the neighborhood of 30 million bushels of the Provincial Government's wheat crop estimate now, in view of present weather conditions. It indicates a drop from previous estimates made in various quarters, the explanation being that dry weather, weeds, pests and reduction in acreage through farmers moving, have all combined to cut down the probable crop.

Hon. George Headley, minister of agriculture, now estimates the area

seeded to wheat at 5,500,000 acres, and he puts the likely average yield at 17 bushels to the acre. This works out at 93,500,000 bushels, assuming that the present favorable conditions continue.

Hon. George Headley, minister of agriculture, now estimates the area

seeded to wheat at 5,500,000 acres, and he puts the likely average yield at 17 bushels to the acre. This works out at 93,500,000 bushels, assuming that the present favorable conditions continue.

Hon. George Headley, minister of agriculture, now estimates the area

seeded to wheat at 5,500,000 acres, and he puts the likely average yield at 17 bushels to the acre. This works out at 93,500,000 bushels, assuming that the present favorable conditions continue.
